# Basic Skills and Competitive Test Track

## **ELIGIBILITY RULES FOR PARTICIPANTS**

The competition is open to ALL skaters who are current eligible (ER 1.00) members of either the Basic Skills Program and/or are full members of U.S. Figure Skating. To be eligible, skaters must have submitted a membership application or be a member in good standing. Members of other organizations are eligible to compete but must be registered with the host Basic Skills Program/Club or any other Basic Skills Program/Club. Eligibility will be based on skill level as of closing date of entries (July 3, 2009). Where entries permit, groups will be divided by gender and age.

All Snowplow Sam and Basic Skills skaters through Basic 8 must skate at highest level passed and NO official U.S. Figure Skating tests may have been passed including MITF or individual dances.

For Free skate 1-6, Test Track and Well Balanced levels, eligibility will be based only upon highest free skate test level passed (MITF test level will not determine skater's competitive level). Skaters may skate at highest level passed or one level higher but not both levels in the same event during the same competition.

**It is very important to the success of the series that skaters are placed in the correct divisions. If, for whatever reason, the local organizing committee discovers that a skater has been placed in a category that is below their class level, the chair and referee will have the option to move the skater to the proper division, even if this has to be done the day of the competition. This will ensure that every event is as fair as possible to the competitors.**

Elements from a previous level are permitted however, elements from a higher level are prohibited and a .2 deduction will be taken **for each** element performed from the higher level. Each program must contain the following required elements to be skated in any order (taken from the U.S. Figure Skating Basic Skills handbook).

- NO official U.S. Figure Skating tests may have been passed.
